EDUCATION

Dr. D. Y. Patil Institute of Technology, Pimpri, Pune <i>B.E. in Information Technology</i>	Aug 2025 – Present <i>CGPA: 9.22</i>
Government Polytechnic, Nashik <i>Diploma in Computer Technology</i>	Aug 2022 – Jul 2025 <i>Percentage: 92.59%</i>
L. S. B. Waje Vidyalay, Sinnar, Nashik <i>Secondary School Certificate (10th Grade)</i>	June 2021 – Mar 2022 <i>Percentage: 95.40%</i>

INTERNSHIP EXPERIENCE

Python with Data Science and AI/ML Developer Intern <i>Sumago Infotech Pvt Ltd</i>	Jan 2025 – July 2025 <i>Nashik, Maharashtra</i>
– Completed intensive training in Python, Data Science, Artificial Intelligence and Machine Learning. – Worked with libraries such as NumPy, Pandas, Matplotlib for data analysis and visualization. – Performed database operations using MySQL Workbench and developed data-driven insights. – Developed AI-based academic support systems and automation tools during the internship period.	

PROJECTS

FitNexus <i>Python, Django, MySQL, NLP, AI Chatbot</i>	Jan 2026 – July 2026
– Built FitNexus, a Gym Management System centralizing members, trainers, attendance, equipment and plans in one platform. – Helped gym owners track performance and make data-driven decisions, cutting manual admin work. – Built modules for attendance, equipment and membership plan management to boost efficiency. – Integrated an AI-powered chatbot for instant query resolution and plan/schedule support.	
AI Powered Student Assistance System (DeepScalers) <i>Python, Machine Learning</i>	Jan 2025 – July 2025
– Built an AI-powered student assistance system to resolve academic queries and provide study resources. – Used machine learning and NLP to generate summaries and answer student questions. – Integrated college-related information including events, announcements, activities, and important campus updates. – Designed the assistant to boost student productivity via automated responses and recommendations.	
Automated Visitor Registration and Faculty Geofencing App <i>Flutter, Firebase</i>	June 2024 – Dec 2024
– Built a smart visitor management and faculty geofencing system to digitize campus entry and boost security. – Enabled QR-based check-in/check-out, pre-registration and real-time host notifications, replacing logbooks. – Integrated geofencing to monitor faculty attendance and campus presence. – Live App: ClickNGo – Google Play Store – Website: clickngo.netlify.app	

TECHNICAL SKILLS

Programming Languages: C, C++, Python, JavaScript, SQL, Java, PHP
Frontend Technologies: HTML5, CSS3, Bootstrap, React.js
Backend Technologies: Django, Node.js, Express.js, REST APIs, API Integration
Databases Technologies: MySQL, SQLite, PostgreSQL, Firebase, Supabase
Core: Data Structures & Algorithms, OOP, DBMS, Operating System, Numpy, Pandas, Machine Learning, Data Science, NLP
Tools: Git, GitHub, VS Code, Power BI, MySQL Workbench, Google Colab, MATLAB

CERTIFICATIONS

Python with Data Science and AI/ML Internship Certification – Sumago Infotech Pvt Ltd (2025)
MATLAB Machine Learning Onramp – Issued by MATLAB (Jan 2026)
Introduction to Generative AI and Agents – Issued by Microsoft (July 2026)
Claude 101 – Issued by Anthropic
AI Fluency: Framework & Foundations – Issued by Anthropic
